To OUR TRADE:

Our price list for 1934 gives you our wholesale prices to the seed trade, based upon our present and estimated supplies. We will be glad to quote special prices on large quantities, our stocks permitting.

The growing season of 1933 was especially unfavorable for peas, owing to the heat and drought. It has left us short of some varieties of both peas and beans.

As in the past, we offer only the best stocks that can be produced and at prices that are consistently as low as can be placed on seeds of high quality. It is sometimes possible to sell for lower prices, but not if quality is to be maintained. Selecting, breeding, roguing and inspecting are very important and necessary operations, and they all cost money. Without them we could not produce seed that would please you and your customers.

Again we call your attention to our excellent shipping facilities—

For the South, from Atlanta, Georgia

For the Middle West, from Toledo, Ohio and

For the East, from Milford.

Carlots direct from western growing stations.

While we are extremely busy in the spring, we nearly always ship spot orders the same day they are received.

We appreciate the fine business you have given us and our travelers, and wish you a most prosperous year.

Yours very truly,

F. H. WOODRUFF & SONS
